

Company Overview

Vitabase Nutrition Ltd, was established in 1978 with the purpose of producing vitamin & mineral premixes for livestock production in Cyprus. The company soon began to export its products to various markets around the world, especially in Europe and the Middle East region and is now considered one of the main players in its field. Production takes place at the VTN facilities in Nicosia, Cyprus.

The company began in 1978 when Mr. Euripides Angastiniotis realized the need for a factory producing vitamin & mineral premixes in Cyprus for the local market. After working at several animal feed related businesses in Cyprus and abroad, he built the VTN factory and began producing the first vitamin premix batch using simple mixing methods with only a handful of staff.

Vitabase Nutrition Ltd. proudly provides high quality custom made products to its customers around the world. It is no coincidence that today, the company is certified with an ISO9001 for quality management, ISO14001 for environmental management, ISO22000 for food safety ISO17025 for international standard and HACCP. The Ministry of Commerce and Industry has also awarded Ministry of Commerce and Industry has also awarded Vitabase Nutrition Ltd with the annual export awards in 1999, 2010 and 2015. Additionally, in 2010 the Ministry of Finance awarded our company with the annual quality award and in 2012 and 2016 we were also awarded the reputable In Business award for SME's in Cyprus in the manufacturing material processing industry.
